

Your Love

Cash Cash

Spot in the crowd singing loud
I'd see her always hanging around, always hanging around
Night after night traffic light
She'd probably let me but I acted polite, acted polite
'Cause time's in my way, but there's a chance for us today

So, wrap me up in your love, girl
Yeah, just wrap me up in your love
Oh, I can't stop, with my love can't make you stay
And wrap me up in your love

You did what you did then you hid
But you still kept me hanging, hanging around, turn me upside down
You did what you did then you hid
And now I'll never see you hanging around, hanging around

Spot in the crowd singing loud
It's kind of lonely haven't seen you around, haven't seen you around
Night after night traffic light would she still let me
Now she's out of my sight, out of my sight
Her eyes keep looking away like there's nothing left to say

So wrap me up in your love, girl
Yeah, just wrap me up in your love
Oh, I can't stop, with my love can't make you stay
And wrap me up in your love

Wrap me up in your love, girl
Just wrap me up in your love
Oh, I can't stop, with my love can't make you stay
And wrap me up in your love

Wrap me up in your love
Wrap me up in your love
Wrap me up in your love
Wrap me up in your love
Wrap me up in your love

Biggest regret I'll ever have
Was hating myself for a check I could have cashed

And now I stand here waiting ready to make this work

Wrap me up in your love, girl
Yeah, just wrap me up in your love
Oh, I can't stop, with my love can't make you stay
And wrap me up in your love

So wrap me up in your love, girl
Just wrap me up in your love
I can't stop, with my love can't make you stay
And wrap me up in your love
Wrap me up in love
