Many Moons

Janelle MonÃ•e

We thought we're free but we're stuck here on the ground
And everybody tryin' to pick there way up
All we ever wanted to say was chased, faced and dealed away
They don't care how we're living today

March all around till the sun goes down,
Like children, like children
Talkin' drinks, no sunshine, and those rhymes we long
Called freedom, for freedom

Your freedoms in your mind,
Your freedoms in a bind

[Chorus]
Ill make it rain ain't a thing and ill make it fall
Lets put it all in your hand and the voice leading up
And when the truth goes vain, the shouts splatter
And when we're growing down, instead of growing up
Tell me are you fool enough to reach for love

He lived in sector 10,
He had a friend named Benjamin
Sail away, sail away, Susan
So strong, so low,
All I want to do is sing my samples oh
This is where, around read before
In the day and night all we want is more

I keep my feet on solid ground
And use my moves when storms come around
I keep my feet on solid ground

Freedom, freedom, freedom
Your freedoms in your mind,
Your freedoms in a bind

[Chorus]

Settle up, settle down, hood rat, crack whore
Care free, nightclub, closet drunk, bathtub, outkast,

Weirdo, step child, freak show, black girl, bad hair,
Broad nose, cold stare, tight squeeze, Broadway, tuxedo
Holiday, creative block, love song, stupid words, erase song
Gun shots, porn channels, dead men walking with a dirty mouth,
Spoiled milk, stale bread, welfare bubonic plague, ...,
Breast cancer, common cold, HIV, lost hope, overweight,
Self-esteem, misfit, broken dream, fish tank, small bowl,
Cyber-girl, joint control, microphone, one stage, tom boy,
Outrage, street fight, bloody war, instigators, third floor,
Broken heart, STD, quarantine, paraplegic, coke head,
Final chapter, death bed, plastic sweat, metal skin,
Metallic ears, manikin, care free, nightclub, closet drunk, bathtub,
White house, scarecrow, dirty lies, my regards...
