

# Shine

Mike Oldfield

Shine  
shine  
she is my light  
she's my light.  
Shine  
shine  
I need her light  
she's my light.  
All you can need and you desire  
If I'm put to the test  
I believe I couldn't get higher.  
Just by being with you  
pictures now out of my mind.  
Have we danced before long ago  
or in another time?  
Because  
Because  
she was  
she was made in heaven.  
She was  
she was  
she was a maid in heaven.  
All that you need and you desire  
Can we sing to the sunlight playing with fire?  
Just by being with you spins me straight round the moon.  
And if our rainbows could dance  
he'd dance for your desire soon.  
Because  
because  
she was  
  
she was  
she was made in heaven.  
She was  
she was  
she was a maid in heaven - she was.  
Shine  
shine  
she is my light

she's my light - she's my light!  
Shine  
shine  
I need her light  
she's my light - and a maid in heaven!  
Shine  
shine  
she is my light  
she's my light -  
She was a maid in heaven!  
Shine  
shine  
I need her light  
she's my light.  
Shine  
shine  
she is my light  
she's my light - she's my light!  
Shine  
shine  
I need her light  
she's my light -  
She was a maid in heaven! Shine!
