

Walking Away

Sugar

Walking away back to you I do
Walking away back to you
I'm walking away, yeah, what more can I say
Walking away back to you I'm walking away back to you I do
Walking away back to you I do
What more can I say as I'm walking away
Walking away back to you I do I'm walking away back to you I do
Walking away back to you I do
What more can I say as I'm walking away
Walking away back to you I do I'm walking away
Walking away back to you [Incomprehensible]
