

Slave

Silverchair

Lived too long, now you've come to take me to
A place where I can die
Lost my soul, lost my confidence in me
Give me something but I'll try
Lived too long and waited to just drown
In my self pity, I keep falling down
Want to be your soldier
Want to be your slave
I have no pride in myself
Only book that I own is called 'How to lose'
Pick a chapter, I know them all, just choose
Lived too long and waited to find
A place where I can die
Lost my soul, lost my confidence in me
Give me something but I'll try
Want to be your soldier
Want to be your slave
I have no pride in myself
That's how I behave
I can't find, I can't find
I can't find, I can't find life
