

Air Traffic Control (Out of Oxygen Mix)

Louis XIV

Well, you were high when I met you
Now you're falling like a leaf from a tree
Wanna reach into the sea
And every time the world goes round
You're getting closer to the ground Air traffic control
I've been gone, I've been up away from home
Now my gear is down, I've circled round
And I am coming in Running out of oxygen
And my fuel is running low
Run, realize where do I go
I'm looking down but they don't show Well, you were high when I met you
Now you're coming down on my frequency
I can't hear you, can you see me?
You're cutting in, I'm breaking up
Your true love trapple and I Air traffic control
Hold on, I'm coming in
Air traffic control
Hold on, I'm coming in Air traffic control
I've been gone, I've been up away from home
Now my gear is down, I'm circling round
And I am coming in Running out of oxygen
And my fuel is running low
Run, realize where do I go
I'm looking down, but they don't show Wanna race into the sea
I can't hear you, can you see me?
I can't see you, can you hear me? Air traffic control
Hold on, I'm coming in
Air traffic control
Hold on, I'm coming in Air traffic control
I've been gone, I've been up away from home
Now my gear is down, I'm circling round
And I am coming in I've run out of oxygen
And my fuel is running low
Run, realize where did you go?
I'm looking down, I'm coming in
