

# Jehovah Made This Whole Joint For You

## New Radicals

Meet a girl I met Carolina  
Her parents jumped off Niagra Falls  
She broke her hips when she was a baby  
Trying to hop the Berlin wall  
It's not that she's anti-American  
Although she shot a mayor at nine  
He looked just like the prez on TV  
But didn't know in '63 he had died Does she think that this world is all wrong  
Does she think I'll rob her and run  
When I ask her she gets her gun  
And simply says scat boy scat scat  
But isn't it a wonderful world, Carolina  
Look at the birdie in the sky  
Jehovah made this whole joint for you, Carolina  
And isn't it wonderful to be alive So original in her black lipstick  
Listening to some obscure band  
That's okay she's helping the environment  
By sipping pure water and such  
Then she screams we better start thinking about  
The ozone layer while tossing out a Styrofoam cup Does she think this world's all wrong  
Does she think I'll rob her and run  
When I ask her she gets her gun  
And simply says scat boy scat scat  
But isn't it a wonderful world, Carolina  
Look at the birdie in the sky  
Jehovah made this whole joint for you, Carolina  
And isn't it wonderful to be alive
