

# Did She Say

## Jagged Edge

Uh huh, uh huh, uh huh, uh, uh, uh, huh huh  
Baby can you hear where I'm coming from  
Or do you need me to turn it up, huh? Huh?  
Can you hear where I'm coming from  
Or do you need me to turn it up, uh huh  
Baby can you hear where I'm coming from  
Or do you need me to turn it up, huh? Huh?  
Can you hear where I'm coming from  
Or do you need me to turn it up, uh huh Tell me how can you  
Believe everything you hear?  
She ain't telling you  
Cause she really wants to be here with me  
And she would do anything to get with me  
So please, don't believe a thing that she says to you Did she say that she, that she been calling me baby  
Did she told you I was no good?  
And how 'bout the time she tried to give it to me  
Did she say that she wanted me?  
Did she say? Think the first time that she stabbed you in your back  
Open up your eyes and see a real friend wouldn't do that  
'Cause you need to sit her down and let her know  
You can't mess up a good thing so go  
I just wanna know one thing, baby did she say? She said, "I want some more"  
Making all sorts of plans  
Trying to get me away from you  
And it as soon as you're gone  
She's tried to get it on  
Baby don't you listen to what she say Did she say that she, that she been calling me baby  
Did she told you I was no good?  
And how 'bout the time she tried to give it to me  
Did she say that she wanted me?  
Did she say? Did she say that she, that she been calling me baby  
Did she told you I was no good?  
And how 'bout the time she tried to give it to me  
Did she say that she wanted me?  
Did she say? Did she say? Did she say?  
That she really wanted me  
Wanted me, wanted me, oh yeah Did she say that she, that she been calling me baby  
Did she told you I was no good?  
And how 'bout the time she tried to give it to me

Did she say that she wanted me?

Did she say?
