Best Beers of Our Lives

Chase Rice

Rollin' on up in our off road rider
Sun sinking down, stars getting brighter
Fireflies dancing like free fall lighters
Set the mood for a good time nighter
Backwoods boys can't stop watching,
Them little hips swaying, swaying.
Rocking and dropping,
Bumping cans spilling, tripping, slipping, and popping,
You know us, you know we ain't stopping.Raise up your cup, come on drink it up
Keep the party sparking like the moon stuck
We ain't going nowhere
Naw we just crazy kids and we ain't got a care.
Here's to riding on the high life,
A little puff and a hell yeah high five
The memories, the laughs, the girls, the nights,
the best friends buzzin' on the best beers of our lives.
Yeah on the best beers of our lives.A little country jumpin' out the radio,
A little slow groove pull her in real close.
Victoria's Secret little smoke show,
Mmm, damn, how these country girls roll (come on)Raise up your cup, come on drink it up
Keep the party sparking like the moon stuck
We ain't going nowhere
Naw we just crazy kids and we ain't got a care.
Here's to riding on the high life,
A little puff and a hell yeah high five
The memories, the laughs, the girls, the nights,
the best friends buzzin' on the best beers of our lives.
Yeah on the best beers of our lives.Yeah these are our nights,
We ain't goin' nowhere.
Our time, young and we don't care
Oh yeah, here' to a sweet ride on the high life
It's such a sweet rideSo raise up your cup, come on drink it up
Let's keep this party sparking like the moon stuck
YeahRaise up your cup, come on drink it up
Keep the party sparking like the moon stuck
We ain't going nowhere
Naw we just crazy kids and we ain't got a care.
Here's to riding on the high life,
A little puff and a hell yeah high five

The memories, the laughs, the girls, the nights,
the best friends buzzin' on the best beers of our lives.
Yeah on the best beers of our lives.
The best beers of our lives.
The best beers, these are the best beers,
These are the best beers,
Man, these are the best beers of our lives.
