Angels With Dirty Faces

Lions Lions

I'm confused, I don't know which way do I really go
This guy is fly but another one pass me by
Stuck in the middle of this spot that is too damn hot
Shall I choose the one with the heavy car or not
'Cause nothing ain't serious see I'm only seventeen
And I wanna be mysterious naughty, sexy on the creep
Never sleep won't reveal the sneaky side of me
All day and night I creep out I think about
Who I'm gonna go and link up don't think that
I'm innocent, baby 'cause this is driving me crazy
Tell me what do you see I'm not an innocent girl
You don't know where we go, you don't know
That we're angels with dirty faces in the morning
You don't know we've been on the town low
You don't know that we're missing to the morning
I'd say that I'm the kind of girl you'd say is shy
But I don't think that's the answer you'd hear if you asked my guy
I'm just a girl who likes to let it go
Party with my ladies 'til dawn still don't just let it go
Move your heads to the beat and shake it down
Like you never did before move a little closer come with me
I'll show you the place to be that's what he said to me
You don't know where we go, you don't know
That we're angels with dirty faces in the morning
You don't know we've been on the town low
You don't know that we're missing to the morning
You don't know where we go, you don't know
That we're angels with dirty faces in the morning
You don't know we've been on the town low
You don't know that we're missing to the morning
We're the type of girls don't think just say everything we want
We know we'll get our own way sexy, classy
Don't think you'll put it past me angels in the day
But at night could be nasty
Keisha, wanna have the fellas locked on ice
Mutya, wanna play around with them like dice
Heidi, he didn't know I was a freak until he met me after dark
He thought this girl was a chic
Move your heads to the beat and shake it down

Like you never did before move a little closer come with me
I'll show you the place to be that's what he said to me
You don't know where we go, you don't know
That we're angels with dirty faces in the morning
You don't know we've been on the town low
You don't know that we're missing to the morning
You don't know where we go, you don't know
That we're angels with dirty faces in the morning
You don't know we've been on the town low
You don't know that we're missing to the morning
You don't know just where I go
You don't know just where I go
