Circus

Kelis

Come join our circus where we all wear masks

Lying while our fans aren't expected to last

Could it be that the trick is on us?

Masquerading like we are the oneCan you blame us?

It started as fun

Didn't know that the game must be won SorryNever did I lie, never did I need a trick y'all

But they told me this how to get rich y'all

Make a hit song, same lame lyrics, same bass, same kick drum

Buy the record you became a big, big victim

Bitch can't front, get what I want

Neck, hands and my wrist numbSick none, diamonds on my wristband

Who I'm talking to? You, you and my biggest fan

Thinking that ya girl got it all

And I got the best man, best hair, best legs

Need a break, you in my face

Asking K, what I'm putting out next yearIs it gonna be real freaky?

Critics wanna come critique me

Are you gonna be more grunge

Rock and roll like back when you dropped beforeBut get back, before I get ill

Black love, black mask

Listen to some real black love

That's all I have, that's all I haveCome join our circus where we all wear masks

Lying while our fans aren't expected to last

Could it be that the trick is on us?

Masquerading like we are the oneCan you blame us?

It started as fun

Didn't know that the game must be won

SorryMusicians, magicians, tightropes

Strobe lights, lion tamers, entertainers

Sold out nights

Dressing rooms, costumes, who's doing who? Gossip rumors

Groupies just too much, everybody's like let's do lunch'That's why it doesn't matter

That's why I'm not a rapper

Still spit a few bars, might never hear this song

Label might say hell naw, get a new female star

She don't have to sing, she don't have to bring anythingGet her some new earrings, fly her off to Beijing

Book her shows in Wyoming, David Letterman and Conan

Your advance just a loan and doesn't it all sound grand?

Number one on Soundscan, just keep the clubs bouncingCome join our circus where we all wear masks Lying while our fans aren't expected to last

Could it be that the trick is on us?

Masquerading like we are the oneCan you blame us?

It started as fun

Didn't know that the game must be won

SorryHow can I shake this circus clown?

What does the ringmaster need from his clown?

Should I dive through the circle of fire?

No, I'm just gonna be meCome join our circus where we all wear masks

Lying while our fans aren't expected to last

Could it be that the trick is on us?

Masquerading like we are the oneCan you blame us?

It started as fun

Didn't know that the game must be won

SorryCan you blame us?

It started as fun

Didn't know that the game must be won

SorryCan you blame us?

It started as fun

Didn't know that the game must be won

Sorry
