

# Dance On Glass

## Q-Tip

The people at the label say they want something to repeat  
But all my people really want something for the streets  
So keep hooking  
Hey ya'll what's goin on?  
So keep hooking  
It's time yo word is bond  
So keep hooking  
Let's do what we must do  
So keep hooking  
Ah ah ah let's hear for  
Keep keep  
Who can make it up, dark ages here in rap  
And the constant conversation has been let's bring it back  
Corny rap style niggas they lack the pedigree  
Deep waters they be in when they are just the manatee  
Who me I am unaffected the Whale, the Hammerhead  
The Magnanimous decision, unanimous, I am fed  
What chu looking at, wait, I can help you with that  
The Formidable, unforgettable painting Abstract  
On the wall amongst them all from Warhol to Jean-Michel  
A commodity, hot property, hears the morning bell  
Guantanamo bayin niggas deferring routs  
You soliloquies are trash inferring that you got clout  
Homie, whats that about? You should revisit your scheme  
Before the scheme it seems real it reverts back to a dream  
Into that pea head of yours  
You ain't commanding no tours  
You seeing fee and per diem  
We seeing that and the doors  
Plus a little bit more because she choosing the prettiest  
Thou while its wittiest  
On the low we the grittiest  
Taking the task, these barbaric insurgents  
Who nursery rhyme niggas and play like they are crime figures  
Man, what could give you such a naive belief?  
There's examples all around of careers being brief  
The Luke Cage of the loose leaf page  
Run and hide, comin out in the yard  
Bonafied to be hard So keep hooking

Keep hooking  
Keep hooking  
Keep hooking  
Keep keep  
So Keep hooking  
Keep hooking  
Keep hooking  
Keep hooking  
Keep keep  
As if we reading pressures higher  
We should all be that inspired  
Too just lift it and take it higher  
Peep the name that's on the flyer  
The Midnight Marauder, low end theoretical  
Ring tone rappers rockin shades are forgettable  
Phantom of the rap world boo  
Yo you puss in boots  
Energy's electric who's looking for a love recruit  
High definition for the fortunate you to view  
Challenges with riches we will put you on strict review  
Time to turn the tide around  
Comin with the tribal sound  
Brandishing these microphones, we outlaws in the town  
Corruption in the fool pit, we witness the jam  
Acquisition of materials the evil of man  
Trickles down to MC's  
We combat the disease  
With the good and hardy measurement  
A real rap sediment  
Degenerate genes and your bodies the host  
You need to open up wide while we give you the douse  
Gather round  
Gather round  
It's the hottest thing  
Gather round  
Gather round  
Gather round  
It's the hottest thing
