

Something Like That

Reality Addiction

I never meant for it to be
this way, by this day
time it came so suddenly
its OK, its OK

Time for me to explain
Difficult, for me to gauge
Underlying what the fear is of siding now

(Chorus)

I'm dieing here to some how under stand
How this castle whoa whoa
How this castle made of sand
So many broken promises
Are slipping through my hand
How do you hold on to
Something like that

I never meant for you to see
Everything, everyday
time it came so suddenly
Its O,K Its OK

Time for me to explain
Difficult, for me to gauge
Underlying what the fear is of siding now

(Chorus)

Castle made of sand
Castle made of sand
Difficulty breathing

(Guitar Solo)

I'm trying here to some how understand
How this castle whoa whoa
How this castle we defend
So many little grains of sand

Are slipping through my hand
How do you hold on to
Some thing like that
