

# When We Were Young

## The Summer Set

Do you remember?  
Back when, we fell in love in your best friends basement  
Spun the bottle and hoped it would land on you  
Thought we were cool, listening to Zeppelin  
Making out on the stairway to heaven  
Nowhere to go, so we slept out on the roof But now, we hardly even speak, at all  
Looking back, how did we get away? I never thought that we'd surrender  
When i was yours and you were mine  
Never regret, no, we learned how to love  
When we were young When we were young Snuck out in your daddy's ride  
at the drive in, makking love for the first time  
Forget thhe silver screen, it's a wonderful life But now, we hardly even speak, at all  
Looking back, how did we get away? I never thought that we'd surrender  
When i was yours and you were mine  
Never regret, no, we learned how to love  
When we were young and still together  
No, there was nothing left to prove  
Never regret no, we learned how to love When we were young and reckless  
Dumb and fearless  
Fighting in the streets  
Will you remember me? Young forever, back then  
Never knew the first love's the hardest I never thought that we'd surrender  
When i was yours and you were mine  
Never regret, no, we learned how to love  
When we were young and still tgether  
No, there was othing left to prove  
Never regret, no we learned how to love  
When we were young When we were young.  
When we were young.  
When we were young.
