Let This Love Begin

Caught In the Act

Baby i guess i've only known you
Two days or so now
But i sure know that
Lady i want to hold you
For the rest of all time
Because i realised
Bridge:
Just sitting here with you
Holding your hand i'm in paradise
Lost in your wonderland
Refrain:
On a moonlit summers night
We watch the ocean rolling in
I guess the time is right
To let this love begin you showed me
What i should've seen i heard the words
I'd only dreamed i guess the time is right
To let this love begin
Baby we'll take a walk alone
And try to imagine we're here forever
Coz lady the thoughts of leaving
Haunt the back of my mind
But i won't leave you behind
Bridge
Refrain
Let this love begin
It's holding us near
We're feeling no fear
The whole world
Is ours to share
Refrain
