

C1

Cervello

Wake me up Iâ€™ve had enough, staring at the walls of sound that you made up
All the trust iâ€™ve found in rust , standing on my leash and see what you've become

Everytime i fell in pain i would have made you feel the same,
Just to see how strong you areâ€™â€™â€™

Cause we are, we are, the product of our dedication how do you like that
Cause we are, we are, the shaders of our own salvation, caught in a mind gap

Wake me up iâ€™ve had enough , to watch you in the fields of joy with all your luck
Lost my soul weak and cold, when i try to breed the air you made i chooke

Everytime i fell in pain i would have made you feel the same, then itâ€™s starts all over
Everytime you made me pay i found new ways to delay
â€•this is now the way i am
