

Glitter

Say Lou Lou

Pin someone against the wall
Dial a number, make the call
Streetlights on the girls ahead
Painted cheeks in ruby red
Can you hear me?
Can you hear me screaming loud?
All that glitter, all that foreign gold
Love all night and live before we're old
Drown your sorrows at the bar
Touch the sky and count the stars
What you get is what you see
Shock you like you won't believe
Can you hear me?
Can you hear me screaming loud?
All that glitter, all that foreign gold
Love all night and live before we're old
Oh-oh-oh-oh-old)
Can you hear me?
Can you hear me screaming loud?
All that glitter, all that foreign gold
Can you hear me?
Can you hear me screaming loud?
All that glitter, all that foreign gold
