

Stadium Parking Lot

Apollo 440

Gunna make enough noise to wake the dead
Its going on in my head
Back from the land that time forgot
There's a party in the stadium parking lotCome on!There's a party going on
I can here it going on
There's a party going on
Bring it onCooking up the spotlight
Have another pop
Turning up the heat againGunna make enough noise to wake the dead
Its going on in my head
Back from the land that time forgot
There's a party in the stadium parking lotThere's a party going on
I can here it going on
There's a party going on
Bring it onCooking up the spotlight
Have another pop
Turning up the heat
Mash up the beat
Turning up the heat againCome on!There's a party in the stadium parking lotThere's a party going on
I can here it going on
There's a party going on
Bring it onThere's a party in the stadium parking lot
