Enigma Of The Absolute

Dead Can Dance

Saloman hung down her head
Laid bare her heart
For the world to see
She craved for intimacy
Through darkened doors
Her aspect veiled with indecision
Gazed out to sea
She craved lucidity
Cast adrift
From past relationships in her life
Hoisted up the ideal
This was her saving grace
Seas of rage that once assailed her
Concern for the truth
Had past her by
And left her high and dry
In her saviors arms
In her saviors arms
In her saviors arms
In her saviors arms
Across the sea
Lies the fountain of renewal
Where you will see?
The whole cause of your loneliness
Can be measured in dreams
That transcend all these lies
And I wish, and I pray
That there may come a day
For a saviors arms
For a saviors arms
For a saviors arms
For a saviors arms
