

All You Need (feat. Sofia & Vivian)

The Cast of Sofia the First

Sofia -
To build the castle of our dreams
May be simpler than it seems.
If you feel a little shy,
Heres something we can try
I'll just sing a little song,
To get us going strong
You can strum, I can hum
Till you wanna sing along
Its on the tip of your tongue,
Just waiting to be sung
So follow me,
Take my lead
A brand new friend
may be all you need.
In our castle, I would float
With the dolphins in the moat.
I'd paint all the towers blue,
But the next parts up to you. Vivian -
Lets have slides instead of stairs,
Giant trees with koala bears.
Every seat would play a beat,
Cause we'll have musical chairs.
It's on the tip of my tongue,
Just waiting to be sung.
I'll follow you,
Take your lead. Both -
A brand new friend may be Vivian -
All I need Sofia -
All I need Both -
We'll just sing a little song
la la la
To get us going strong Vivian -
I can strum Sophia -
I can hum Both -
And then we'll sing along
I'm so glad we found a way
To make this the perfect day Vivian -
I'll follow you Sofia -

I'll take your leadBoth -
A brand new friend may be
All we need
All we need.
