Angel

Pebbles

My angel
You were like an angel
And I think that all should know, that...
That you're now an angelNow that you're living with our Lord
You were everything that I know to be right
You were a guiding light
With the time that you hadNever will we forget you
You brought us so much joy
Into all our lives, and you
Showed us how to loveWe had each other then
Wish you'd shared your pain
Maybe you'd still be here
We never knew your fears
Wish you'd let us in
Maybe then, you'd still be here, cause...You were like an angel
And I think that all should know, that...
That you're now an angel
Now that you're living with our Lord
Angel
You were like an angel
And I think that all should know, that...
(You're my angel)
You're now an angel
Now that you're living with our LordYou were everything so sweet and so kind
You were that guiding light, in so many lives
Never stop missing you
You stay on my mind
Now it's hard to not cryWe had each other then
Wish you'd shared your pain
Maybe you'd still be here
We never knew your fears
Wish you'd let us in
Maybe then, you'd still be here, cause...You were like an angel
And I think that all should know, that...
You're now an angel
(I want the world to know)
Now that you're living with our Lord
Angel
You were like an angel

And I think that all should know, that...
(You're my angel)
You're now an angel
Now that you're living with our Lord
(Said you're my angel)
You were like an angel
My angel
And I think that all should know, that...
You're now an angel
Now that you're living with our Lord
Angel
Sweet angel
