

# We Bite

## Orange Goblin

We walk the streets, we're out to get you

We bite

Just a feast of blood and gore

We bite

Carnivores that live for pleasure

We bite

Strike out like a wolf's endeavor

We bite When I get your blood, I rip your throat

Your blood, I rip your throat

Your blood, I rip your throat

To drink some blood We bite

We bite

We bite

We bite When I get your blood, I rip your throat

Your blood, I rip your throat

I want your blood, I rip your throat

To drink some blood We bite

We bite When I get your blood, I rip your throat

Your blood, I rip your throat

Your blood, I rip your throat

To drink some blood We bite

We bite

We bite

We bite
