Evening Rain

Khang

I can't stand to see the morning come
While the evening rain's still falling
I can't stand to see the morning come
While the evening rain's still falling
I can't stand to see the morning come
While the evening rain's still falling
Like the day saw the same
All the problems, I follow
I run away, saw the plane
The gray life tomorrow
But I can't stand to see the morning come
While the evening rain's still falling

But I can't stand to see the morning come
While the evening rain's still falling
I close my eyes
It doesn't work
I can hear tomorrow
I can't stand to see the morning come
While the evening rain's still falling
I can't stand to see the morning come
While the evening rain's still falling
I can't stand to see the morning come
While the evening rain's still falling
