

# Evening Rain

Khang

I can't stand to see the morning come  
While the evening rain's still falling  
I can't stand to see the morning come  
While the evening rain's still falling  
I can't stand to see the morning come  
While the evening rain's still falling  
Like the day saw the same  
All the problems, I follow  
I run away, saw the plane  
The gray life tomorrow  
But I can't stand to see the morning come  
While the evening rain's still falling

But I can't stand to see the morning come  
While the evening rain's still falling  
I close my eyes  
It doesn't work  
I can hear tomorrow  
I can't stand to see the morning come  
While the evening rain's still falling  
I can't stand to see the morning come  
While the evening rain's still falling  
I can't stand to see the morning come  
While the evening rain's still falling
