

# Marco Polo

## NQ Arbuckle

Everything I say is a lie  
How do you like me now  
I need you I don't need you  
Can you figure it out

I walk past parked cars  
Haven't seen you forever  
our uncrossed stars  
always made for stormy weather

Say it ain't so  
Where are you now  
Marco Polo

You grab me in your eyes  
and the night fades around  
What are you doing later  
I'm just thinking out loud

In the drunken to and fro  
Where are you now  
Marco Polo  
Marco Polo  
Marco Polo

I'm just drifting round the room  
catching you time to time  
the way you tie your hair back  
to another song I can't write

So I sit alone  
with the dark and departed  
and it's always last call (last call)  
just when I'm getting started

Don't make me go home  
Where are you now  
Marco Polo  
Marco Polo  
Marco Polo

Marco Polo

Marco Polo
