

# Hands

## The Ting Tings

Two hands  
I wanna play the piano with two hands  
Should've learned  
Two hands too many, it's the way of the world  
Poland you're not being good to me  
You gave me a piano with all 88 keys  
But two hands  
Whats a girl to do  
With two hands  
To make the money like the richest of man  
Whats a guy to do  
With two hands  
I can make you be so good to me  
Give me all his time with my sexuality So clap your hands if you're working too hard  
And the beat's so hard, you're workin', workin' Two hands  
What you're supposed to do with two hands  
To get the life of the richest of man  
Where're you supposed to go with two hands  
I could have been something in between  
When I'm breaking my back and I'm on my knees So clap your hands if you're working too hard  
Clap your hands if you're working too hard  
Clap your hands if you're working too hard  
Clap your hands if your working to hard  
And the beat's so hard, your workin', workin' And I, I can't escape from the work in LA  
And I, I can't sleep in my bed in UK  
And you clap your hands if your workin' to hard  
Clap your hands if you're working to hard You see life and it's falling away  
You slow down and the rest makes you pay  
I see you lookin up  
You want to think about it Clap your hands if you're working too hard  
Clap your hands if you're working too hard  
Clap your hands if you're working too hard  
And the beat's so hard, you're workin', workin' And I can't escape from the work in LA  
And I can't sleep in my bed in UK  
And clap your hands if you're workin' too hard  
Clap your hands if you're workin' too hard
