

# Dedicated

## Mavis Staples

Down the road we walked  
Down the road we talked  
I remember when  
I made war with you  
I made peace with you  
That's what makes you my friend  
And if it's us against the world  
Well I would bet on us (to come out on top)  
But if you go yours  
And I go mine  
All bets are off  
This is dedicated  
This one's dedicated  
to you  
This one's because we made it  
This one's because we  
made it through  
There was a time I thought  
Half the friends you got  
were counterfeit at best  
And you thought it wasn't right  
How I lived my life  
But time put those doubts to rest  
And if it's us against the world  
And still, I would bet on us (to come out on top)  
But if you go your way  
And I go mine  
All bets are off  
This one's dedicated  
This one's dedicated to you  
This one's because we made it  
This one's because we made it through  
This is dedicated  
This one's dedicated to you  
This one's because we made it  
One's because we made it through  
This is dedicated  
This one is dedicated to you  
for you

One because we made it  
One because we  
made it through  
Down the road we walked  
Down the road we talked  
I remember when.
