

Mindchanger

Bush

Help me sometimes, I need that much
Don't you think it's strange, how we can turn to dust
Think it's strange, like really strained
We'll never run when we've got all these broken bones
It's so hard to let you go, la la la la la
It's so hard to let you go, la la la la la
I will make you change your mind
I will make you change your mind
I think of me sometimes, I'd never tell
Do you recognize me, think that you know me well
I think you're changing, configuring
Destroyed the lines that fed the goods to your heart
It's so hard to let you go, la la la la la
It's so hard to let you go, la la la la la
Run with the hunted as you come
(Run with the hunted as you come)
Run with the wanted, I was one
(Run with the wanted, I was one)
I will make you change your mind
I will make you change your mind
(Your mind)
It's so hard to let you go, la la la la la
It's so hard to let you go
(Run with the hunted as you come)
(Run with the wanted, I was one)
Run with the hunted as you come
Run with the wanted, I was one
(Run with the wanted, I was one)
I will make you change your mind
I will make you change your mind
