Solipsist

[unknown]

Here in the dark, dizzy from the stars that light your face?br> The winter makes you shake, let me be the warm place?br> 'cause I burn with the fire of a lifetime waiting for youIf nobody sees you, do you exist?
Don't ever fall in love with a solipsist.
If you're falling to pieces, can she make you whole?
If nobody sees you break will you fix it on your own?You burn through the film in shades of the sunrise,
I am the moon, ablaze in the first lightI've been watching their faces, I've seen through their eyes
Wandered through places where the desperate tell their lies
They pass like an ocean, over my skin
I've been holding my breath for years so they won't get in
