

# Midnight Girl

Lenny Williams

I made a wish on a starry night  
And then you danced into my life  
A lovely girl from a story book  
I fell in love with just one look  
Midnight girl Your eyes were filled with such mystery  
We held each other tenderly  
And just before you spoke your name  
The clock struck twelve and you ran away Midnight girl, was it all a dream  
Kissing and holding you next to me?  
Midnight girl, the story just cant end  
'Til youre back in my arms again, come on in Ive got your silver shoes in my hand  
A broken heart and shattered plans  
But if it takes 'til the end of time  
Ill find you girl and Ill make you mine Midnight girl, was it all a dream  
Kissing and holding you next to me?  
Midnight girl, the story just cant end  
'Til youre back in my arms again, come on in Come on in, come on in  
Come on in, come on in Midnight girl, was it all a dream  
Kissing and holding you next to me?  
Midnight girl, the story just cant end  
'Til youre back in my arms again, come on in Midnight girl, kissing and holding you  
Oh, midnight, midnight girl  
Oh, midnight, midnight girl  
Oh, midnight Its a crowded place but wheres your lovely face?  
All the flashing lights but its a lonely night  
The music plays and plays but youve gone away Oh, midnight, midnight girl  
Oh, midnight, midnight girl Its a crowded place but wheres your lovely face?  
All the flashing lights but its a lonely night  
The music plays and plays but youve gone away Midnight, midnight girl  
Midnight, midnight girl  
Midnight, midnight girl
