

# What's The Hurry

**Marianne Faithfull**

What's the worry, what's the hurry  
Do you hear me, do you fear me?  
You've got the message, you read the story  
You want the power, you need the glory  
Clocks break, time goes by  
Hot sake along the fly  
She laughs on a spin  
He laughs, turns you in  
What's the panic, where's the static  
Do you see me, could you meet me?  
I heard the rumor, you've got my number  
But now I see you run for cover  
So you thought you had it made  
Ain't it easy to be afraid?  
Feel the pressure, take the bait  
Here it comes again  
Clock breaks, time goes by  
Hot sake along the fly  
She laughs on a spin  
He laughs, turns you in
