lighten up

Bonzilla

I can feel a storm brewing over nothing
We were having fun, there's no harm done there
You need attention, I can see you're sulking
It's about time that you learn to share
Lighten up, it's gonna brighten up
I want to play, you're in the way of our sunshine
Lighten up, it's gonna brighten up
Just let it go and I will throw you a lifeline
I don't know what happened to those resolutions
We think we found the truth at last when it escapes
Inside the mirror is a false impression
I can feel so swollen when I'm in good shape

Lighten up, it's gonna brighten up
I want to play, you're in the way of our sunshine
Lighten up, it's gonna brighten up
Just let it go and I will throw you a lifeline
Lighten up, it's gonna brighten up
I want to play, you're in the way of our sunshine
Lighten up, it's gonna brighten up
Just let it go and I will throw you a lifeline
Lighten up, it's gonna brighten up
I want to play, you're in the way of our sunshine
Lighten up, it's gonna brighten up
Just let it go and I will throw you a lifeline
