Done with Like

Brie Larson

Never thought I could feel
So complete without your face
And your plastic diamond ringsBut there's a man who cannot see
Driving in his mercury
Here beside these pointless thingsI'm too young to be jaded
With wasted memory space
Of love that isn't realAs a matter of fact
You can take your stereo back
'Cause I'm so done with
I'm so done with like
'Cause it's all so pointlessSeven blocks, all backed up
With guys waiting just for me
It doesn't matter 'cause you go down
The same road eventuallyThere's a dream I forgot
Like a film without a plot
Here's a story you should knowI'm too young to be jaded
With wasted memory space
Of love that isn't realAs a matter of fact
You can take your stereo back
'Cause I'm so done with
I'm so done with like
'Cause it's all so pointlessI won't wait for your call
Don't stop to speak in the hallAs a matter of fact
You can take your stereo back
'Cause I'm so done with
I'm so done with like
'Cause it's all so pointlessI'm too young to be jaded
With wasted memory space
Of love that isn't realAs a matter of fact
You can take your stereo back
'Cause I'm so done with
I'm so done with like
'Cause it's all so pointlessI'd be stupid to think this could last
Much longer than history class
I'm surrounded by a damn good time
And I'm not gonna miss it
