

Go Getter

Negash Ali

The kking of the castle
Has got you under lock and key
 Yeah
I'm armed and ready for battle
 It's time to face the enemy
 Yeah
 I'll put up the fight
 Not giving up
Now the pressure's on, show me what you got
 Won't accept defeat, I'll never stop
 I'll do whatever, whatever
 Imma go get get get, go getter
 And Imma go get get get, go getter
 I never gonna quit, I ain't no quitter
 Knock me down and I'll get up again...
 You are my princess
The one I need to liberate (liberate, liberate yeah)
 They can burn all the bridges
 But Imma get there anyway
 Get there anyway, yeah
 Now it's time, time to step it up
 Want you to be mine no matter what
 And I give my life just to feel your touch
 Can't you see it in my eyes
 Imma go get get get, go getter
