

# The Death Song

Marilyn Manson

We're on a bullet  
And we're headed straight into a God  
Even He'd like to end it too  
We take a pill, get a face buy our tickets  
And we hope that heavens true I saw a cop beat a priest on the TV  
And they know they killed our heroes too We sing the death song kids  
'Cause we've got no future  
And we want to be just like you  
We want to be just like you  
We want to be just like you  
Let's sing the death song kids We light a candle on an earth  
We made into a hell  
And pretend that we're in heaven  
Each time we do we get  
The blind man's ticket  
And we know that nothings true I saw priest kill a cop on the TV  
And I know they're our heroes too We sing the death song kids  
'Cause we've got no future  
And we want to be just like you  
We want to be just like you  
We want to be just like you We sing the death song kids  
We sing the death song kids We sing the death song kids  
We sing the death song kids  
We write our prayers on a little bomb  
Kiss it on the face and send it to God We sing the death song kids  
'Cause we've got no future  
And we want to be just like you  
We want to be just like you  
We want to be just like you We were the world  
Now we've got no future  
We want to be just like you  
We want to be just like you  
We want to be just like you We were the world  
Now we've got no future  
We want to be just like you  
We want to be just like you  
We want to be just like you  
Let's sing the death song kids
