

Rainbow

Stevie Hoang

Everybody in love,
Lemme see your hands, put them lighters up
(2x)
Oh~Everybody in love,
Lemme see your hands, put them lighters up
(2x)
Hey!
Oh~Fame and fortune was what I lived for
Cars and cribs I thought I would die for
You should know it all changed when I found you, found you
Clubs and shows that just don't excite me
So content when you're here beside me
All I ever wanted,
I found in you, in you and**Now that you're here, (nothing)
Is gonna change (but I don't)
Want nothing else,
Just as long as I have you
Baby there will be always sunny days,
But I know everything's gonna be okay
Cuz when the rain is falling down I know,
You're gonna come through like a rainbow
It don't even matter what I'm going through,
Cuz girl, I know that I can always count on you
Cuz when the rain is falling down I know,
You're gonna come through like a rainbow
Rainbow, rainbow, you're gonna come through like a rainbow
Rainbow, rainbow whoa oh
Travel far to so many places
Seen my share of beautiful faces
You should know that ain't got a thing on you, on you
TV shows and radio stations
When they ask to say that I'm taken
Ain't no holding back how I feel for you, for you
Now that you're here, (nothing)
Is gonna change (but I don't)
Want nothing else,
Just as long as I have you, yeah~
Baby there will be always sunny days,
But I know everything's gonna be okay,
Cuz when the rain is falling down I know,
You're gonna come through like a rainbow
(Like a rainbow)
It don't even matter what I'm going through,
Cuz girl, I know that I can always count on you
Cuz when the rain is falling down I know,
You're gonna come through like a rainbow
Rainbow, rainbow, you're gonna come through like a rainbow
Rainbow, rainbow whoa oh
Yeah~If only you could see just what I see,

You would know just what you mean to me,
Girl there ain't no doubt in my mind,
That I wanna be with you for life Even when the seasons fade away,
I know your love for me will never chaange~
Feel so good to know you're here to staaay~Everybody in love,
Lemme see your hands, put them lighters up
Oh!~
