Pick 'Em Wisely

Guttural Riot

All you ever do is lie, lie straight to my face, every single day your high, higher then space, I'm at work your getting wasted there's whiskey on your breathe and I can taste it

I hate hate hate everything about you, I can't stand stand stand anything that you do, I don't want want want to be with you anymore living with you is like a chore get out of my house and shut the fucking door

I put food on the table, I pay for rent and for cable, say you'll help with the bill but don't even try, spending money at the bars flirtin with guys, rockin the trends, out till 3 with your hoodrat friends

I hate hate hate everything about you, I can't stand stand stand anything that you do, I don't want want want to be with you anymore living with you is like a chore get out of my house and shut the fucking door

Gettin booty calls in the middle of the night, comin home drunk startin fights, there's nothing about you that I like you make me hate my fucking life

I hate hate hate everything about you, I can't stand stand stand anything that you do, I don't want want want to be with you anymore living with you is like a chore get out of my house and shut the fucking door

Fool me once shame on you fool me again bitch we're through wanted to play high school games so I fucked your sister yesterday! What's up now bitch?! Peace out!
