

Old Willie Nelson Song

Wayne Mills Band

A heartworn highway
I thought my way was the right way
Now all I wanna do is fly away
On the stardust to the moon
So me and this ol' El Camino chased you
Halfway 'cross here and all the way to Reno thinkin'
Maybe at the end of the rainbow you would be my pot of gold

CHORUS

But I was wrong, now the radio helps me move on
That's why tonight I'm feeling like
An old Willie Nelson song

I searched the whole state of Texas
On my way back wwest from Nash-Vegas
where your leavin' got the very best
Of me a time or two
Maybe it was the bright lights
Or how I loved the night life
Made you wanna be anyone else's wife
Anyone's but mine

CHORUS

It was time, it was time for you to move on
That's why tonight I'm feeling like
An old Willie Nelson song

CHORUS

It was time, It was time for you to move on
That's why tonight I'm feeling like
An old Willie Nelson song

That's why tonight I'm feeling like
An old Willie Nelson song
