Feel It

Danny Fernandes

Yo Shawn
The wait is over
Yes it is
Yo bro
Tell them what it is
We party night till dawn
Everyone grab a drink
And get your party on
Everything that you want
You know that
You know we got it got it
You know that we got it got it
Turn up the music loud
Ain't no way to describe
The way we're feeling now
Steady rocking the dancefloor
You know
You know we got it got it
You know that we got it got it
Chorus
Hey can you feel it
We gon' forget about time
We gon' lose it to 9'

Hey if you feel it
Throw your hands up right now
Party till the night time
Sweat dripping on the floor
Everybody doing things
You've never seen before
Everything that you want
You know that
You know we got it got it
You know that we got it got it
Breaking down the walls
Body's are rocking
There is no stopping us at all
DJ keep it coming
You know

You know we got it got it
You know that we got it got it
Chorus
Bridge
Everybody feeling right
Everybody in their five
Tell you what you gonna do
Don't stop, don't talk, just move x 2
Chorus x 2
