

Doris

Suicide Silence

Fuck yeah
It crushes me to know she's ignored
Throw up, hang up, this one is for no one
Show me how it is inside
Show who I am this time To give
To let you
Either way this blood will rot
To be, just be
The blood is draining through my eyes
To be with someone's lover, my bad
You know it, I threw up
My little, my trash, my lover
Show me how it is inside
Show who I am this time Too good
To let you
Either way this blood will rot
To be, just be
The blood is draining through my eyes Fear, fear!
They'll shoot me with this not right fear, fear
This earth and world is not enough, fear
To be, just be
To care, do you care?
To be, just be
The blood is draining through my eyes Never be it, never be, never be, never be, never be, never
