

Green Lights (Instrumental)

Aloe Blacc

Something special happened today
I got green lights all the way
With no big red sign to stop me
No traffic jam delay See I was driving over the moon
(Ohh I)
In my big hot air balloon
(Ohhh I)
Floating high into the darkness
(Ohhh I)
I hope I get there soon
(Ohhh I)
There's so many things to do
So many people i need to talk to
And they've all been waiting for me
Well I gotta make it through Something special happened today
I got green lights all the way
With no big red sign to stop me
No traffic jam delay Thank my stars for every green
(Ohhh I)
You have no idea what it means...no no
(Ohhh I)
To a man who's always traveling
(Ohhh I)
Whose seen the things that I've seen
(Ohhh I) I don't know what's yet to come
Not sure of anything that I've done
Really makes that much a difference
Well I hope it has for some Something special happened today
I got green lights all the way
With no big red sign to stop me
No traffic jam delay Well I was driving over the moon
(Ohhh I)
In my big hot air balloon
(Ohhh I)
Floating high up in the darkness..
(Ohhh I)
I promise that I 'll make it to you very soon
(Ohhh I)
Something special happened today.
