

# That Side of You

**Mark Chesnutt**

Last night, I dreamed I went to sleep for good  
In the crowd that gathered round, there you stood  
When it finally came your turn to say goodbye  
Right then and there, I watched you break down and cry  
And that's when I knew, I was dreamin'  
The vision was to good to be true  
It'd take much more than just me dyin'  
For me to ever see that side of you  
At first I thought you were an angel  
Waitin' there to carry me away  
Then the pain left my heart when I felt your touch  
And in your arms, I found everlasting love  
And that's when I knew, I was dreamin'  
The vision was to good to be true  
It'd take much more than just me dyin'  
For me to ever see that side of you
