

My Friend

Moshe Hecht

hey it's me
your friend
your companion
calling to you from
our little island
where our friendship
started

its just you its just me
its just time
its just silence
remembering
the time on our island
no longer hiding
I know I may not look like you, but I sure
dream like you
and I
dreamt of you
before I met you
and did you know
when you come over
over and over my friend
yes when your around me
joy that surrounds me my friend
I'm no longer lonely
you are my only
in the end, in the end
I can't stop smiling, no one knows me like
you
my
friend

tell me tell me
is it true
that giants can't keep
up with you and theres nothing you can't do

and I know I may not
think like you but I

sure laugh like you
and oh do we laugh us two

yes we do

Chorus:

and did you know
when you come over
over and over
my friend

yes when your around me
joy that
surrounds me my friend

I'm no longer lonely
your are my only
in the end, in the end
I can't stop smiling, no one knows me like
you
my
friend

when you come over
the clouds they roll over
my friend
no I can't explain it
what you have created
my friend
I'm no longer
lonely
you are my only
in the end
in the end

you change
one life
you change the world
well you changed my life
so watch out
world
My friend
