Little Angel

Hard-fi

When I'm lonely, deep in the city at night
Nobody near me except that red neon light
I get down on my knees and I pray
There you are darling, bring salvation today
A shining light, you taste just right
I'm hungry, you feed me, keep watching over me
'Cause darling you're my, my little angel
Yes darling you're my, my little angel
Come to a river, yeah, it's a hundred miles wide
I can't see how I'll make the other side
I get down, down on my knees and I pray
There you are darling, sailing my way
Shining light, you taste just right
I'm hungry, you feed me, keep watching over me
'Cause darling you're my, my little angel
Yes darling you're my, my little angel
I get a feeling, it's a matter of fact
I'm walking around with a knife in my back
I sink down, down to my knees and I pray
There you are darling, take my pain away
Shining light, you taste just right
I'm hungry, you feed me, keep watching over me
'Cause darling you're my, my little angel
Yes darling you're my, my little angel
