

# Live On

## Delta Spirit

When miguel hit the ground  
I threw the padlock in the trash  
Finally found out  
Just how much it takesFor one whole year he spent  
Making me turn red  
Forget the light ahead  
Forget the light aheadDid I come to meet  
The felon in my head  
He's been stretching me  
Right up on the racksFor years it's been the same  
Ignoring all the facts  
Forget the light ahead  
Forget the light aheadIt'll all live onHiding from the moon  
Under a live oak tree  
How could I forgive  
What you said to me?Sure as the sun will rise  
You pay the penance in your bed  
Forget the light ahead  
Forget the light aheadIt'll all live onWe gotta leave at three  
Take the highway round the bend  
Holding on to memories  
Never let a good night endBut as the morning came  
I can't remember what I said  
Forget the light ahead  
Forget the light aheadIt'll all live on
