

Dreaming in the Wind

[Mike Oldfield](#)

You may see a white bird in a clear blue sky
I'm dreaming in the wind turning high
There's a whispering sound in the air all around
I'm dreaming in the wind
As the sun goes down you may see a bright star
In a clear night sky
I'm dreaming in the wind
As the earth rolls by
There's a silver light as the bird takes flight
I'm dreaming in the wind
As the day turns to night
You may hear the wind sigh on a mountain high
I'm dreaming in the wind
I belong to the sky
On a distant shore there's no one more
I'm dreaming in the wind
I'm at heaven's door
There's a new sunrise in the crimson skies
I'm dreaming in the wind
As the white bird cries
See the silver light as the bird takes flight
As the day turns to night
Dreaming in the wind
Dreaming
Dreaming in the wind
I'm dreaming in the wind
Dreaming
Dreaming in the wind
