Seed Awakening

Nevermore

There is no stronger drug than reality
Twist and change, time is nothing, regret everythingWitness Seed Awakening
Witness Seed AwakeningThe execution solution, we're weeding out the weak
So condemn their revelations, the masses love the death showWe are cold when we are strong
In one breath we can still growWe are cold when we are strong
In one breath we can still grow
These curious moments of shattered clarity
Stained sentient portraits of our damaged sanityIf this is our perdition, will you walk with me?
We are sentient shades of our subtle mortalityWe are cold when we are strong
In one breath we can still grow
These curious moments of shattered clarity
Stained sentient portraits of our damaged sanity
Stained sentient portraits of our damaged sanityWitness Seed Awakening
Witness Seed Awakening
