

# My Country

## Midnight Oil

Was it just a dream? Were you so confused?  
Was it just a giant leap of logic?  
Was it the time of year, that makes a state of fear?  
Methods were the motives for the action And did I hear you say My country right or wrong  
My country right or wrong  
My country right or wrong Did you save your face? Did you breach your faith?  
Women, there were children at the shelter  
Now who can stop the hail when human senses fail  
There was never any warning, no escape And did I hear you say My country right or wrong  
My country, oh so strong  
My country right or wrong My country right or wrong  
My country's going wrong  
My country right or wrong I hear you say the truth must take a beating  
The flag a camouflage for your deceiving  
'Cause I know, yes, I know it's written on your soul  
I know, we all make mistakes This is not a case of blurred vision  
It's a case of black holes, pocket holes, soul holes Did I hear you say My country right or wrong  
My country, oh so strong  
My country right or wrong My country right or wrong  
My country's going wrong  
My country right or wrong My country  
My country  
My country
