

# Truth or Dare

## Blind Date Quartet

I got a secret, I'm telling everyone  
Don't wanna keep it, I wanna play dumb  
I made a promise I think I'm ready to break  
It's just a question, there's nothing wrong or right  
And your intentions keep you up at night  
Play with fire and you are way too insane  
But when the lights go out, go out  
We are just beginning  
And not a sound, our eyes are looking down  
Spin the bottle round and round and round and round  
Last kiss on the tip of your lips  
Where it heads, now watch your heart beat beating  
Time's up, are you ready or not?  
So don't stop when you get that feeling now, now  
Tock, tock, it's your heart beat beating  
Now, now, it's just  
I feel uneasy, I feel it in the air  
It's too danger, I'm playing unprepared  
I try to hide it before I make a mistake  
But when the truth is out, is out  
We're just beginning  
Without a sound, our eyes are looking down  
We spin the bottle round and round and round and round  
Last kiss on the tip of your lips  
Where it heads, now watch your heart beat beating  
Time's up, are you ready or not?  
So don't stop when you get that feeling now, now  
Tock, tock, it's your heart beat beating  
Now, now, it's just  
Well, I'm ready, so ready  
So take me on  
(So take me on)  
You're staring, I'm so trapped  
It's on and on and on and on  
Last kiss on the tip of your lips  
Where it heads, now watch your heart beat beating  
Time's up, are you ready or not?  
So don't stop when you get that feeling  
Last kiss on the tip of your lips

Where it heads, now watch your heart beat beating  
Time's up, are you ready or not?  
Well, don't stop when you get that feeling now, now  
Tock, tock, it's your heart beat beating  
Now, now, it's just a game
