

# Black Parade

Gin Wigmore

Autumn leaves are dead  
Like a fire I will burn at best  
Autumn rise is gone  
As a child I would wash in red  
Don't stop my head from falling  
All my friends I've lost  
Has the grave won again?  
All my friends I forgot I will be heard again  
I can be what you lost  
I can be what you lost Black parade,  
I give in  
Will hang from within  
Only to adapt  
To the water  
I will sing like left(?!)  
All these words I've failed  
To try and keep you here in my bed  
Don't stop my head from falling  
All my friends I've lost  
Has the grave won again?  
All my friends I forgot I will be heard again  
I can be what you lost  
I can be what you lost Black parade,  
I give in  
Will hang from within  
(Bridge)  
Somehow days don't look the same  
Tell the rains they cannot stay  
Feel I beg and watch will (?!)  
Fill the rains with ocean wood  
Soon I will wait to hold against  
Wrong or right, we never made  
I'm closing out,  
I'm falling  
All my friends I've lost  
Has the grave won again?  
All my friends I forgot I will be heard again  
I can be what you lost  
I can be what you lost Black parade,

I give in  
Will hang from within
